

Clean Water

+ Collagen

+ Vitamin C

+ Aroma Therapy

Waters Therapy Shower
Beautifying body and soul.

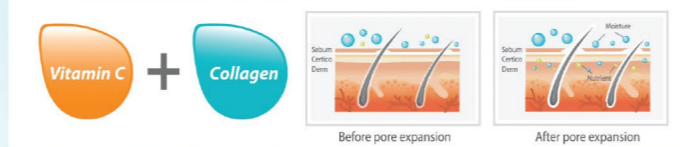

The Waters therapy shower has been developed to both cleanse the body and mind. It surpasses existing shower technology, creating a functional and versatile shower system, well suited for the busy, healthy lifestyle.

www.therapyshower.co.nz

Mass negative ions, 250,000 (50 times more than a waterfall) are emitted and our new technology water spray plate sprinkles the water, as soft as silk, allowing you to enjoy a comfortable massage like shower. It also only uses half the amount of water from a general shower and creates a higher water pressure.

Freshens the skin by supplying vitamin C to the water continuously. Thus protecting the skin, allowing it to become healthier. Removing deep wrinkles, softening and supplying nutrition, moisturizing as well as rejuvenating the skin through collagen, increasing softness and elasticity.

The pores are temporarily opened during a shower, allowing vitamin C and collagen to be effectively supplied to the skin. The skin can absorb vitamin C, preserving and tightening it, thus preventing ageing and wrinkles.

The Waters therapy shower uses aromatherapy, giving a positive effect over: stress relief, metabolism, regulation and mental stability.

Waters Aromatherapy effect

1. Outstanding aroma therapy - Relieves tension and stress.
2. Excellent skin repair and rejuvenation - Directly transfers the natural vitality back into the skin.
3. Removes and cleanses using natural aromatherapy fragrances
4. Activating and energizing body functions.

Available in many fragrances

Lavender

Aromatherapy. Filter available with optional fragrances including Lavender, Black cherry, Oakwood neutral and Lemon.

Easily attachable shower head, adaptable to most household shower systems

soul

Waters therapy shower utilizes aroma therapy, beneficial for our health. Absorbed into our body through nose, mouth, skin, and mucous membranes during showering.

Waters therapy shower provides soft water through the magnetization function, reducing the size of the water molecules, which accelerates the water absorption.

New generation stimulus technology applied to the sprinkle gives you the feel and touch of soft water, also creating a massage effect.
